THIS QUICK START GUIDE DOES NOT REPLACE THE SAFESHOOT NON SHOOTER DEFENDER DEVICE MANUAL. PLEASE CAREFULLY READ AND UNDERSTAND ALL CAUTIONS AND WARNINGS LISTED IN THE FULL MANUAL.

Overview

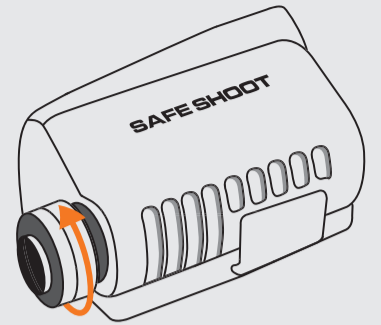

Non Shooter Defender device in **SAFESHOOT** backpack.

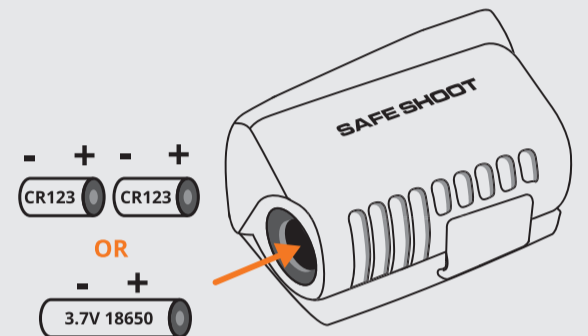

Non Shooter Defender device in **SAFESHOOT** pouch, attached to a dog collar.

1 Device Preparation

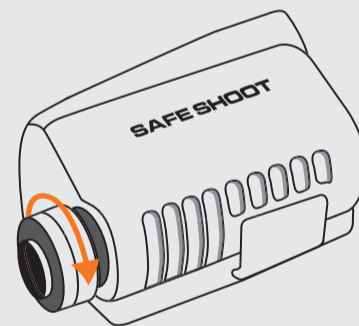

A Untighten and open the tail cap by turning left.

B Insert two CR123 batteries (using the battery sleeve included) or one 18650 battery (without the sleeve). Utilize fresh batteries only.

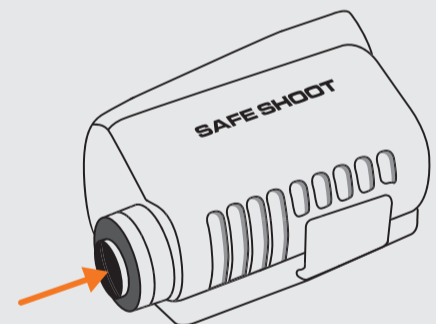

C

Tighten the tail cap by turning right.

D

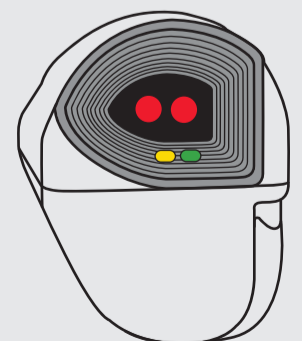

Press the **POWER ON** button.

E

Verify that all the LEDs light up.

If the LEDs indicators don't turn on, make sure the batteries are new and inserted in the correct orientation.

If the problem continues please contact us.

LED Light up
One beep tone

2 Device Registration / Activation

For new devices only

B Sign-up **OR** Log-in if you already have an account.

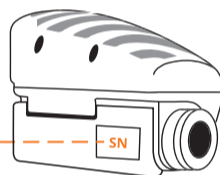

C In your Customer Dashboard, note the three orange buttons on the left: "Activate", "Download", and "My Devices".

D Click on "Activate". This form will register the devices to you, and generate activation codes for each device.

E Fill out the form with up to five **SAFESHOOT** device serial numbers (digits only), then click "Submit".

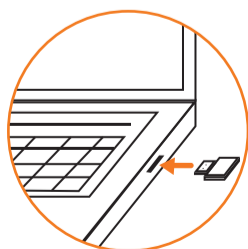

Enter your device serial number:

Write down or copy your **activation codes**, you will need them later. You can also email them to yourself with the button marked "Email me these codes".

Your devices with their serial numbers and activation codes can also be viewed at any time under the "My Devices" button.

G Click on the "Download" button to download the **SAFESHOOT Connect** application. Select your operating system, and download the file.

H Before proceeding, plug in the Bluetooth USB dongle included in your **SAFESHOOT** package into a USB port.

I You will only be able to **activate** one device at a time, so power off all **SAFESHOOT** devices **except the one you intend to activate**.

IMPORTANT!

FROM HERE ON OUT, **DO NOT POWER OFF YOUR DEVICE** AT ANY TIME UNTIL THE ACTIVATION IS COMPLETED.

J Once the program finishes downloading, launch it. Note for **Windows users** - The application must be run using system administrator privileges. To do so - **right click** on the application icon and select "Run as Administrator".

You may have a follow up prompt asking if you wish to allow this program to make changes to your computer, select "Yes".

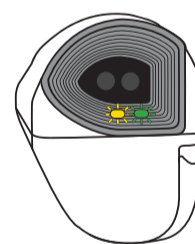

K Enter your device **activation code**, including hyphens, into the form.

Confirm that your device is **powered on** and is no more than 5 feet away from the computer.

L Press "Activate".
The program will locate your device. Follow the prompts on the screen.

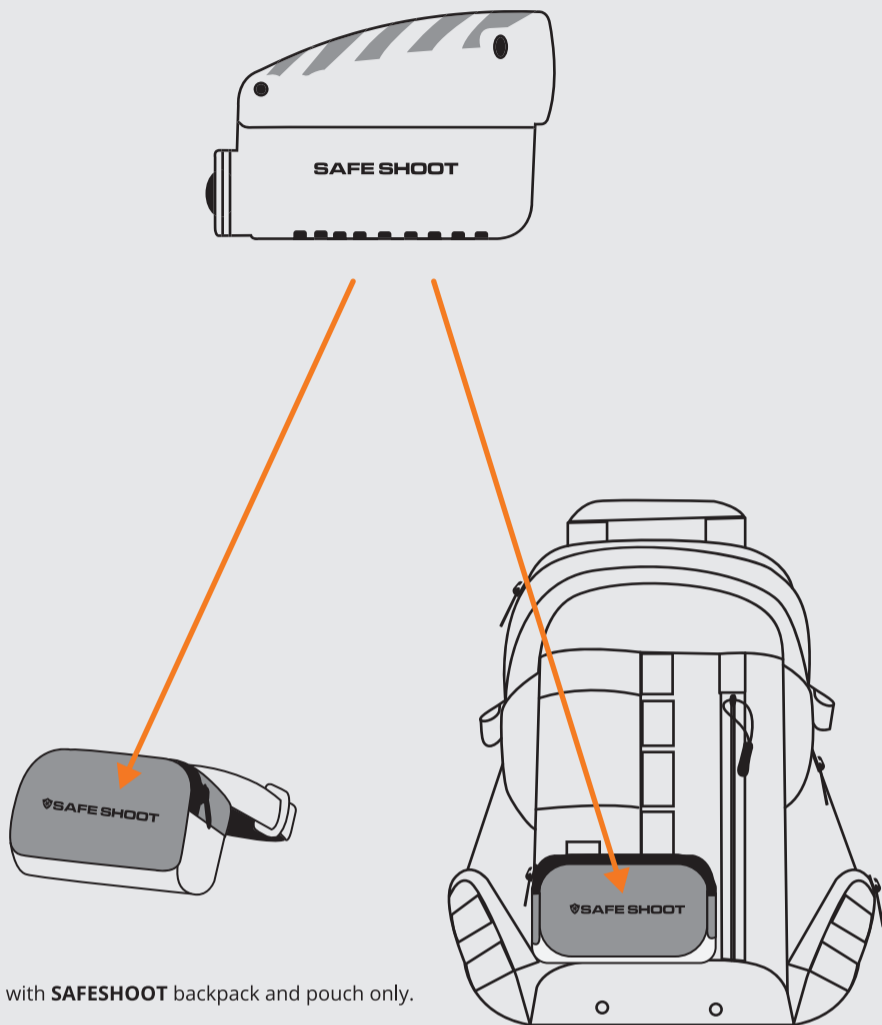

M After the activation process is completed, a beep sound will be heard.

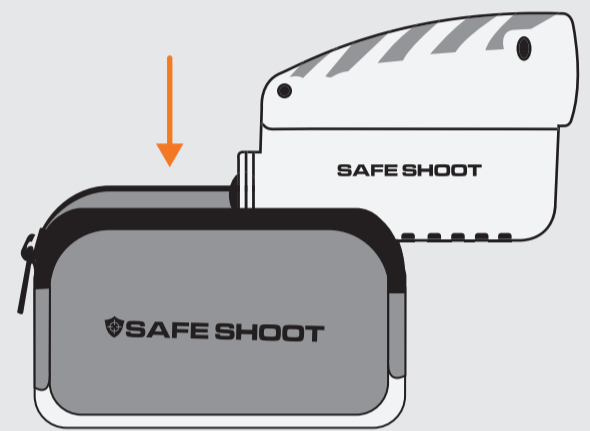

YOUR DEVICE IS NOW ACTIVATED
You may proceed with the next operating instructions.

3 Device Installation

A

B

Insert the **SAFE SHOOT** Non Shooter Defender device into the pouch and make sure the device is positioned correctly and secure.

4

**You are NOW READY
HAVE A SAFE HUNT**
